FRESH CATCH COLD SMOKED TASMANIAN SALMON

Using only the finest principles of traditional dry salt curing (not brine injected), the fish is then cold smoked to our recipe producing a delicate flavour of fish and light smoke. The fish is finely sliced to provide the best palate feel. Fine slicing means a better yield for the discerning chef. No fat and no bloodline. This is what good fish is all about!

MOONDARRA FARM WAGYU SMALLGOODS

A perfect 'melt in your mouth' experience will be had with this superb Wagyu Salami. The unique feature of Wagyu is the composition of the fat, namely it consists of monounsaturated fatty acids (stearic and oleic acid). These fatty acids are the 'good' cholesterol that aids in removing saturated fatty acids from the body. Its culinary/gustatory feature is its low melting point (around 27 degrees Celsius) which means that it literally "melts in your mouth", being a luxurious flavour on its own but also acting as a vector for the natural flavours of the meat.
