WHAT'S HOT

▶ TASTE OF GREECE

Enjoy the taste of sun-ripened deli olives straight from your pantry.

Global Organics Mixed Pitted Olives consists of Kalamata and green olives that are hand-picked straight from the tree in a small village in Greece. Global Organics follows traditional Greek curing practices, which eliminate the need for liquid, oil or brine in the jar. This practice delivers olives that are bursting with flavour, crunchy in texture, high in nutritional value and your very own taste of the Mediterranean.

Global Organic Mixed Pitted Olives are certified organic, gluten-free, fructose-free, dairy-free and vegan. 🌱

RRP \$8.49 | Shelf Life 2 years | Contact Kadac

◀ AREEBA!

Manomasa are all about the celebration of the 'real' tortilla chip, taking inspiration from street flavours and fiestas from Mexico and around the world. Made from a strong yellow corn masa or the finest white corn masa rolled out, rested, toasted until it pops, and then tumbled through sunflower oil for a crisp base. Use it as a cracker - with a sliver of soft, runny Brie and a dollop of chutney, perhaps? Available in the following flavours in a 160g bag - sea salt & cracked pepper, Chipotle & lime, Tomatillo salsa, Manchego & Green Olive. 🌱

RRP \$3.99 | Shelf Life 7 months | Contact Raw Materials
