### THE TASTE OF LUXURY

The Giuseppe range is growing. Complementing the high standards of their pastas, sugos, pestos and crostinis, Giuseppe have released their Italian Truffle range, which includes White Truffles from the highly acclaimed Italian region of Piedmont as well as Black Summer Truffles sourced from Molise.

The range includes Summer Black Truffles, which are available either shaved or finely diced. Enjoy a little bit of luxury available all year round and add them to pasta and rice dishes, stir them through scrambled eggs or add them to an omelette. They're also great for an elaborate toasted sandwich.

The White Truffle infused honey is fantastic for drizzling over hard cheeses and is also a perfect match for roquefort and gorgonzola, while the truffle oil is an ideal way to get a taste of truffle, without surrendering half your wallet.
