THE INGREDIENT

Great paella starts with really good Spanish bomba rice, but the olive oil has to be good, too. So does the paprika. And for that matter the stock, the sherry vinegar and the saffron. So rather than running all over town, I went to the experts. Raw Materials, a supplier of local and imported top-notch groceries, has been around since 2002. Its ingredient hampers are lovingly tailored, beautifully presented packages of foodie quality with themes such as Italian grocer, pantry essentials and something sweet. Choose from the range, or select your own ingredients online. Food lovers note: the Footscray showroom will be open for Easter shopping and a grand cru chocolate tasting this weekend.
